

# EASYSTACK

The Best  
3D Interface  
Available

Your cost effective and smart solution to automate stacking and de-stacking.

Engineered for simplicity and efficiency, EasyStack brings automation within reach. Ideal for manufacturers and warehouses looking to save time, reduce manual handling, and improve consistency effortlessly.

Compatible with Euro, Standard, and various other custom pallet types. We design and build palletisers to match your production requirements, including the supply of any supporting equipment your process might need.

EasyStack is a practical, effective addition to your workforce – a mobile platform that can be relocated between production lines in just minutes. Designed with flexibility in mind, it helps you adapt quickly to changing production demands without the need for complex setup or reprogramming.

Capable of stacking up to 1.5 metres as standard, and up to 2.5 metres with the addition of a vertical lifter. A versatile option, well suited to a wide range of stacking and de-stacking processes.

- ✓ User Friendly
- ✓ Up to 25kg payload
- ✓ Flexible
- ✓ Mobile
- ✓ Compact
- ✓ Intuitive
